

Not Sure What Valve You Need? Our Engineer Jerry Can Help!

Former Customer,
Now Current Employee

Jerry A. Butz, BSEE, CMRP
Process Control Engineer

Jerry has 29 years of hands-on experience in process control and heavy industrial processes, including petrochemical, extrusion/web handling, and bio-fuels. His role prior to Automation Service ranged from technical plant start-ups and turn-arounds to Instrumentation Reliability Engineer and Technician. In May of 2010, Jerry joined Automation Service as our Process Engineer after a long tenure at DuPont.

Jerry is a Certified Maintenance & Reliability Professional, accredited by ANSI/SMRP, as well as a Certified Six Sigma Green Belt. He has a strong background in troubleshooting, root cause failure analysis, and has sized literally thousands of automatic control valves. Jerry is an instrumental part of our team, and is readily available to help with any valve-sizing challenge.

BenchMark Control Valve Diagnostics™

Automation Service ensures our remanufactured Fisher® control valves' performance with BenchMark Control Valve Diagnostics™. Our certified valve technicians can provide a detailed report outlining your valve's performance. This is yet another way Automation Service distinguishes itself from shops that merely rebuild or repair valves.

ABOUT US

Automation Service is the world's largest remanufacturer of process controls. We offer quality products at great prices with superior customer service to clients across the globe. Remanufactured control valves, transmitters, positioners and magnetic flow systems are just a few of our specialties. Visit our website at www.automationservice.com for a full product offering.

Since 1956, Automation Service has grown to one hundred and fifty employees and is currently operating out of a 7-acre, 110,000+ square foot facility in St. Louis, Missouri, USA. We are internationally recognized as the leading supplier of remanufactured process controls, with ISO 9001:2008 certification that reinforces our commitment to quality. Our products are used by the Paper & Pulp, Petroleum refining, Petro-Chemical, Utilities, and Food & Beverage industries around the globe.
